# Horse-Drawn Trips

## Pulling the Past into the Future

Experience a very environmentally-friendly boat trip aboard one of the very last Horse-Drawn Barges in Great Britain today! . . .

Passengers have described their Horse-Drawn experience as ... "Wow! ... totally relaxing, peaceful ... a feeling of serenity (as the barge has no engine) It is like being at one with the canal and its wildlife".

Just relax, as our crew and large Heavy Horses Ross, George or Brindley take you on a historic journey, 200 years into the past at two miles per hour, with the gentle rhythmic clip clop of their hooves ... the ripples of the water gently disturb the sunlight, as you listen to birdsong and the occasional call from waterfowl. The brightly coloured flag iris, lilies, damsel & dragonflies catch your eye, as you slowly pass by . . . You can't help but drift off into the past, and imagine the canal of yesteryear.

At the beginning of your horse-drawn barge experience the skipper will introduce the crew, and during the voyage he will share some interesting stories and anecdotes about the canal, horses and history. A lot of visitors are also very surprised to see just how easy the barge is to pull for our horses, the skipper will also explain about weights floating on water and how this is entirely different to weights on wheels on land! . . . That very fact, led to the reason that small horses were able to pull such huge weights along our canals in Britain many years ago.

*The Barge has a Gift Shop & Fully Licensed Bar (cash only), Upholstered Seating and Toilet.  
All Trips are 1.5 hrs or 2.5 hrs Return - (see Timetable)*

UK Living Heritage!
